Manage your manufacturing business, not the other way around.

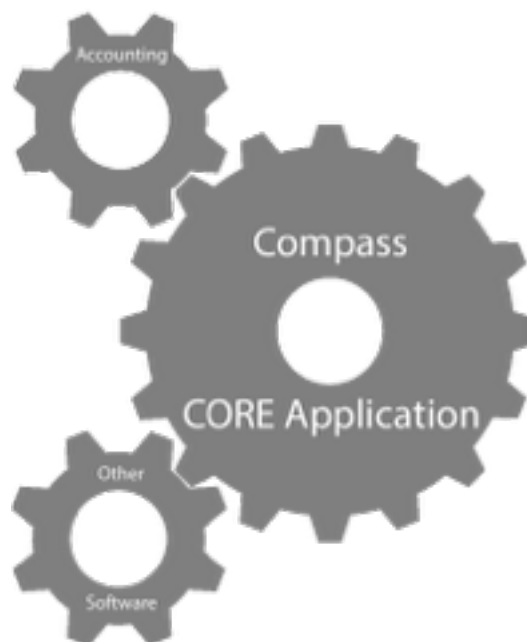

The bottom line is that Compass saves time, reduces costs and improves results.

Use Compass to organize, track and measure all activities, from quoting, scheduling through to execution. The improved visibility and control you get from Compass helps you use resources more effectively and strategically. Compass provides immediate insight into and control over progress, dependencies, spending, and variances.

Simplified View - Information at your fingertips.

The application has the same look-and-feel throughout the modules. Managers can monitor information that needs immediately attention.

- Material Management per job.
- Track Quotes to Jobs.
- Jobs that are over or near the budget.
- Events that need immediate attention.
- Manager Reporting on Jobs, Invoices, Purchases, and Employees.
- Invoice jobs and service calls.

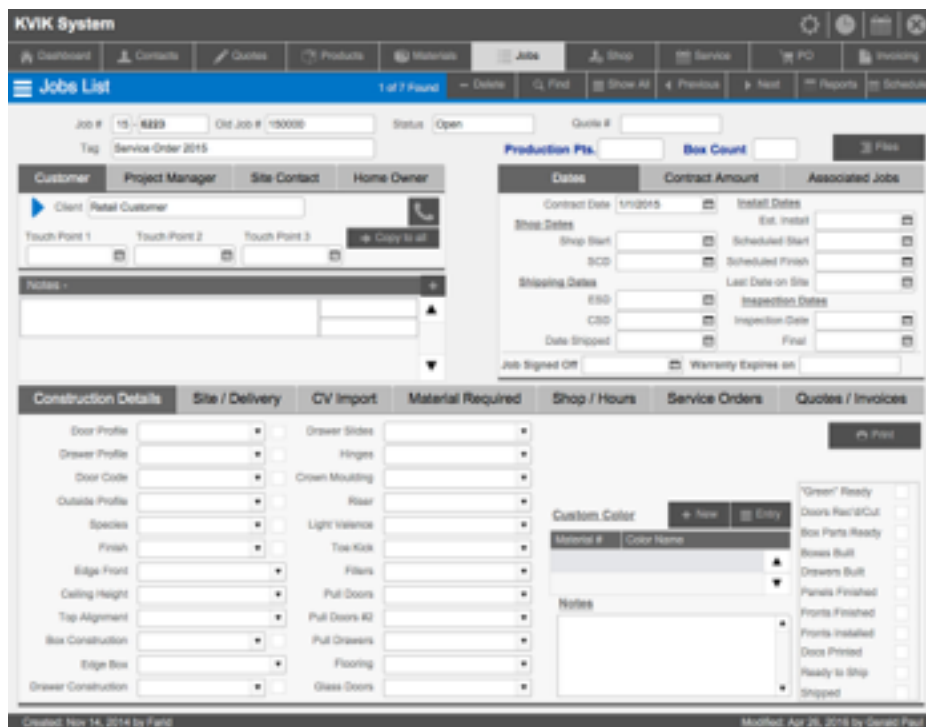

Jobs

You can see all the relevant data at a quick glance including all the dates associated to this job.

You can create new shop work orders, service orders, quotes and invoices with a click of a button.

Attaching associated jobs is a cinch.

You have the ability to attach the relevant contacts to each job so you don't have to search for them in other applications.

View Progress of all jobs in one glance

Each open job will display whether a task has been completed or not with color coded bars. This will assist management to see which jobs are falling behind or right on track.
